[Nonresponsive based on revised scope]

We're looking at sending you the HRS for Blades by the first or second week of May. Due to some sampling irregularities (PFAS) we had to resample and that held us up somewhat, but it will only be one pathway - GW.

Ex. 5 Deliberative Process (DP)

Subject: Sept update sites

Lorie,

I have you down for the following new site for the September update:

Blades Groundwater Plume, DE

Can you please verify that the site is still in the queue for September and let me know if you will be submitting the site HRS package for QA on or about the scheduled deadline (**April 18**) (if not, an approximate ETA would still be helpful). Also, if you already know this:

level of QA to be requested (abbreviated [*no ref check*], streamlined [*custom/shortened ref check and review*], full/std [*full review, full ref check*] or intensive QA [*custom expanded review for sites with known/significant risk of challenge*])

Thank you!

Planned Absence: Friday 4/12
